Abstract: The affected entities are subject to the General Provisions of the NSPS at 40 CFR Part 60, Subpart A and any changes, or additions to the Provisions specified at 40 CFR Part 60, Subpart Ec. Owners or operators of the affected facilities must make an initial notification, performance tests, periodic reports, and maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports are also required semiannually.

Form Numbers: None.

Respondents/affected entities: Hospital/medical/infectious waste incinerators.

Respondent's obligation to respond: Mandatory (40 CFR Part 60, Subpart Ec).

Estimated number of respondents: 8 (total).

Frequency of response: Initially, occasionally, semiannually and annually.

Total estimated burden: 5,670 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$972,000 (per year), includes \$402,000 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an overall increase in burden in this ICR from the most recently approved ICR. This is due to an increase in the estimated number of sources subject to the regulation, and is not caused by program changes. We estimate the industry will continue to grow at the rate of one new source per year. This results in increases in the respondent labor hours, number of responses, and capital/O&M costs.
